Dear Prosecutor Proctor,

Matt Michel has come to my attention recently because he was publicly posting on Facebook that an article I wrote was "garbage." I have reached out to him to ask him repeatedly what information I got wrong and he has not responded nor will he come to the phone to answer the charge he made. I believe the case I'm writing about is one you are familiar with, Haynes v. Haynes, where 14-year-old Mikaela Haynes killed herself after her guardian ad litem announced her plans to testify on behalf of her child rapist father Charles Haynes.

I have a few questions for you and your office:

1. Is it the practice of Butler County prosecutors to comment publicly about cases it is involved with on Facebook in the way Matt Michel has?
2. If Matt Michel wants to go on the record about what he knows that I have gotten "wrong" I am open to a correction. I am offering to sit down with him and listen to what he has to say. Can you make him available to correct the record? He has indicated that he is in possession of information that the public should know. This is his chance to alert the public to this important information. Will he sit down with me?
3. Michel used to work for Maness & Maness who was the firm that represented Charles Haynes. Isn't it a conflict of interest that he is now working for the prosecuting attorney's office but still publicly defending a convicted criminal and the people he worked with who are implicated in this child's death? (See the wrongful death lawsuit that was filed against Jennifer Williams.)
4. During your time as prosecutor, I've been told that Chuck Haynes' first attorney gave you a computer that belonged to Bernice Haynes that Chuck admitted to using that was full of child porn. Why didn't you press charges against him for that illegal material and where is that computer now?
5. A recording of Chuck Haynes threatening to kill the complaining witness against him, Melissa Hogg, was also given to your office before his trial and I have published it on YouTube. On the recording it very clearly shows Haynes saying "bury that Hogg" and that he's "going out in a blaze of glory," and will be taking down more than one person with him. Why wasn't threatening a criminal witness added as a charge against him?
6. Why doesn't the Butler County prosecutor's office appear to take the threat that Charles Haynes poses to children and other citizens very seriously?

7. Have you personally ever worked with Seigred Maness or any other Maness from the law firm Maness & Maness before you were a prosecutor?

8. Have you personally ever worked with Jennifer Williams, guardian ad litem, at any time in a professional or personal capacity?

I have attached the comments that Michel left on Facebook about my article regarding the tragic death of Mikaela Haynes for your review. Please respond asap as I am under deadline.

Here is my article that Michel was commenting on fyi: <https://pjmedia.com/news-and-politics/megan-fox/2021/11/22/missouri-guardian-ad-litem-served-in-wrongful-death-suit-for-suicide-of-14-year-old-abuse-victim-mikaela-haynes-n1535423>

I would like to get your official comment on Michel's online activity and on the other questions I asked in order to update this article or write a new one depending on the information I receive. I'm working under deadline and would appreciate a response by 5PM EST today.

Thank you,

This is an absolute garbage article that contains very little actual fact. You all should be ashamed for spreading such lies.

Sara Rivera-Hofer, do you know any of the people involved and did you check out this site? This is an absolute opinion piece which isn't based in fact. I would never defend the pedophile. Dude is where he needs to be, but to attack the GAL in this case is absolutely inexcusable.

Ms. Tolu is an opportunist "attorney" that is out to make a name for herself without having any kind of actual experience practicing law.
